SELECTMEN'S REPORT

The past year has been one of change for the town of Yarmouth.

The town in November voted acceptance of a new Town Charter with provisions for a town manager and seven councillors. The charter was passed by the State Legislature in its regular spring session.

The seven member council was elected at a special election held on January 7th from a list of thirty three candidates. At its executive session shortly thereafter the council elected Mr. Buel J. Ferguson as its new chairman and organized two standing committees to form the new government;

1. Finance Committee

Raynham Bates, Chairman

Ray Kibler

Willis Reed

2. Committee on Appointments

Sumner Goffin, Chairman

Minnie E. C. Knapp

George Barbour

The Army Engineers have received all dumping permits requested and have informed the selectmen that bids for dredging will be advertised by the federal government in February, to enable dredging to start in May or June.

The referendum on the sewer project was passed in November and authority for the municipal officers to borrow the necessary funds by Bond issue was approved at the same meeting. The Federal Government has approved substantially all of the matching funds for the various eligible contracts.

The Village green was purchased from the Grand Trunk Railway and developed under the direction of the Village Improvement Society.

Open house was held by the Central Maine Power Company for inspection of its new addition to William F. Wyman Station on Cousins Island. Many thousands of people were shown through the plant under the supervision of able guides.

Our most attractive Post Office was dedicated in June under the supervision of Edwin C. Brown, Postmaster.

The selectmen wish to thank the J. C.'s for their interest in town affairs and the installation of additional street signs.

Road Commissioner Harry Morrill, has done a fine, economical job on the roads and the removal of snow. Some roads and sidewalks need rebuilding and money should be raised for these special rebuilding projects.

Respectfully submitted,

BUEL J. FERGUSON

MILTON A. NIXON

ALAN M. RAND

Board of Selectmen,
Town of Yarmouth.

Seated left to right: George S. Barbour, Minnie E. C. Knapp, Willis Reed, Buel J. Ferguson.
Standing: Sumner J. Goffin, Raynham T. Bates, Ray S. Kibler.

The mapping and valuation has been kept up to date by the firms of Cole, Layer and Trumble and Wright and Pierce Engineers.

The Assessor will be in session at the Town Office on the first three business days of April to receive declarations and hear complaints. Unless you present a true and perfect list of your taxable property (both real and personal) either in person or in writing, at this time, you are barred from appealing your

valuation for that year. Watercraft are considered personal property and should be so declared.

All map reference numbers refer to Assessors' maps made by Wright and Pierce for the Town of Yarmouth,

Urban maps numbered U-1 to U-19 incl.

Rural maps, R-1 to R-5 incl.

Island maps, I-1 to I-14 incl.

Respectfully submitted,

BUEL J. FERGUSON,

MILTON A. NIXON,

ALAN M. RAND,

Board of Assessors.

TOWN CLERK'S REPORT

The following is the number of births, deaths and marriages recorded up to December 31, 1965 in the Town of Yarmouth. State law forbids the printing of names of births, deaths and marriages, but these records are available to anyone directly interested in them:

Births	81
Marriages	57
Deaths	71

Also, 297 dog licenses were issued in 1965. The State has now changed the due date for licensing dogs from April first to January first, so that even though you now have a 1965 dog license, your 1966 license is past due.

The following Hunting and Fishing Licenses were issued during 1965:

Combination Hunting and Fishing	116
Resident Hunting	379
Resident Fishing	287

Respectfully submitted,

PHYLLIS M. TINKER,

Town Clerk.

REPORT OF THE REGISTRAR OF VOTERS

During the past year there have been 140 new voters added to the Voting List. They were as follows:

23	Democrats
63	Republicans
54	Independents

140 Total Registrations.

There were 156 names removed from the list due to deaths and persons who have moved out of Town.

There were numerous corrections made due to incorrect spelling, marriages, etc.

The Voting List, as of 1-31-66, consists of 2,623 registered voters as follows:

495	Democrats
1,399	Republicans
729	Independents

2,623 Total Registered Voters.

My thanks to the Town Officials and Mrs. Tinker, Deputy Registrar, for their cooperation.

Respectfully submitted,

ELEANOR VanBLARCOM,

Registrar of Voters.

ANNUAL REPORT OF FIRE CHIEF

I wish to thank the selectmen, the police department, members of the fire department, officers and citizens of the town of Yarmouth for their warm support and good will which has made the past year a very pleasant one. It is a pleasure to serve you under these conditions.

There have been 61 alarms, 47 still alarms and 41 calls to the dump. This last item is a time consuming job, but with the new water line which will be ready in the spring we should be able to control the fires at the dump properly.

I have made more than 200 inspections on both new property and from calls received from citizens of Yarmouth. Estimated fire loss \$9,800.

We experienced the loss of one of the most respected and best fireman and chief it has been my privilege to work with in the death of Charles E. Greeley, former fire chief of Yarmouth for over 50 years. Mr. Greeley had a wide circle of friends and was known all over New England. He was responsible for one of the best departments in the state. We hope it will continue to operate in the same manner.

The monitor radios which were purchased for all firemen seem to be working out very well. They have already proved their worth in the fast response of the men when called for a fire or other duties. This method of alerting the firemen also helps greatly in preventing the chance of accidents as the firemen are on the road before other traffic can get in their way. It also enables the men to know the location before they start out.

This next year I would like to make some changes such as; building an extension to the Center St. station for a hose drying tower, move the stairs to the outside at Main St. station to make more room and also replace the emergency vehicle.

Respectfully submitted,

E. A. WINSLOW,

Fire Chief.

REPORT OF THE CHIEF OF POLICE

The new '65 police wagon was delivered to the Town of Yarmouth in June 1965. It now has 19,713 miles on it. The '64 police car has 69,058 miles on it and should be traded as soon as possible when the new Town Manager form of government takes over. It might take six weeks or more before a "66 police vehicle can be delivered. Usually after 60,000 miles in order to keep a vehicle on the road means a great outlay of money.

We have had a few residents of Yarmouth who had gumption enough to follow through on their complaints by going to court and obtaining warrants. If some more would do the same it would be a great help to the police in carrying out their duties.

Below is a summary of arrests and offences:

	Arrests
Speeding	133
Public affray	4
Loaded gun in motor vehicle	1
Drinking in motor vehicle	3
Intoxication	5
Reckless driving	2
Non-support	1
Indecent exposure	3
- Failing to stop for flashing red light	1
Operating to endanger	2
Illegal possession of intoxicating beverages	1
Illegal transportation of intoxicating beverages	4
Petty larceny	1
Operating after suspension	5
Imprudent driving	6
Operating without license	14
Stop signs violations	18
Obstructing traffic	3
Assaulting officer	1
Interfering with officer	1
Operating under influence	7
Excessive noise by motor vehicle	9

Assault and Battery	7
Disorderly conduct	10
Malicious mischief	1
Leaving the scene of an accident	1
Going wrong way on one way street	3
Leaving vehicles on highway without lights	2
Passing on a curve	1
Uninspected motor vehicles	13
Taking motor vehicles without owners consent	3
Failing to report accidents	3
Improper passing	1
Unregistered trailers	3
False information	1
Passing flashing red light on R.R.	1
Failing to display proper plates	1
Failing to yield right of way	2
Following fire truck too close	1
Habitual truant	1
Vagrancy	2
Failing to stop for an officer	1
Operating without lights	1
Illegal possession fire works	1

Out of 285 arrests, 24 of the cases were dismissed or not-prossed. There were also these investigated.

54	Accidents
92	Warning cards issued
92	Defect cards issued
646	Complaints handled for year
5	Non-highway accidents

Recovered motor vehicles and other articles.

- 3 Stolen Yarmouth vehicles, recovered in Yarmouth two and one in Kittery
- 1 Stolen out of Freeport, recovered in Yarmouth, subjects apprehended

- 2 Outboard motors and one boat recovered
- 4 Stolen blankets recovered

Misc. cases attended to by this department:

- 6 Breaking, entering and larceny
- 10 Larceny, no breaking and entry
- 3 Trips to Augusta Hospital
- 6 Prowler complaints
- 1 Attempted suicide, overdose of pills
- 3 Convoy money to bank
- 2 Deaths in motor vehicles, heart failures
- 1 Dead on arrival to Doctors
- 10 Death messages and others delivered
- 25 Ambulance calls
- 20 Take sick girls and boys home from school
- 8 Family arguments
- 4 Lost girls and boys
- 10 Malicious mischief cases
- 2 False fire alarms blown
- 10 Assist State Police at accidents
- 1 Convoy money from High School to bank
- 8 Assist stranded motorists
- 10 Dog complaints and dogs hit by cars
- 8 Subjects picked up at Yarmouth from Portland turned over to Portland P. D.
- 40 Doors, windows and other things found while vehicles on patrol.

On May 1, 1965 a part time officer was put in the cruiser to assist the regular officer every Friday night and to learn by seeing and doing police work.

This report should give the town people a good idea of events and happenings, police wise.

I wish to thank everyone for their assistance and cooperation with their police department.

I wish to tell you again how to reach the police vehicles if no answer by phone at my residence. Each vehicle is equipped with two mobile radios. One on the fire band and one on the State Police band. To contact by phone fire radio 846-5922, or my residence 846-4168.

Respectfully submitted,

LESTER E. GRAHAM,

Chief of Police.

CIVIL DEFENSE DIRECTOR'S REPORT

Upon taking the position of Director of Civil Defense and Public Safety, I again found the organization in a very dormant condition.

The months of September and October were spent mostly updating all reports. A new Town Plan had to be executed, along with renovating all past records.

This being accomplished, we then turned to building the membership, to where Civil Defense could again be operable in Yarmouth.

We have in the past few weeks, coordinated Civil Defense Communications, with Citizen's Band Radio. The results, we now have Yarmouth, and surrounding areas under our control by a United Radio Coverage.

In the very near future, we hope to set up a Medical Self Help Program. This will be open to anyone who may wish to attend and participate. Dates will be published at a later date.

We seem to have lost touch with the Women Coordinators end of Civil Defense Program. This situation, I hope, may be remedied in the near future, also.

In these times, and conditions, such as the Viet Nam Crisis, Civil Defense should be most prominent in the minds of all. What citizens can, and should do in emergencies. These answers

can be found by supporting your local Civil Defense and Public Safety Program.

Respectfully submitted,

LAWRENCE A. STODDARD,

Director of Civil Defense and
Public Safety.

REPORT OF YARMOUTH HEALTH OFFICER—1965

Most of the time expended, this past year, was on the checking and licensing of local restaurants and others covered by the Health Code of 1962. In general, cooperation was excellent, with only one placing obstacles in the way of a proper check. Most of these places are in complete, or nearly complete, observance, and others are working to approach that goal.

Sewage and drainage problems are, as always, a problem, with the prospective remedy, in many cases, dependent upon the new sewage system completion. The Newell Road difficulty was placed in the hands of the Selectmen, who went through an involved procedure with the railroad to alleviate this somewhat. One of the more serious difficulties is that of the Princes Point area, where some summer places are still in violation. This is complicated by the fact that some of these are in locations where the lot is too small, or too rockbound, to install adequate leaching beds.

Communicable diseases were numerous, with mumps and measles the primary ones. But there were few such diseases which proved serious.

Garbage disposal remains a poorly observed part of our health effort. The dumping of garbage at the town dump is strictly prohibited, but infractions persist. Most of the town is serviced weekly by Mr. Russo, on Sligo Road, and residents who are not serviced should get in touch with him. Garbage should be stored, when outside, in a covered, dog-proof, container.

Respectfully submitted,

KENNETH G. LARRABEE,

Health Officer.

ANNUAL REPORT OF THE PUBLIC HEALTH NURSE YARMOUTH — 1965

A summary of the public health nursing program carried on in Yarmouth is presented by your public health nurse. This program is provided by the Division of Public Health Nursing of the Department of Health and Welfare.

The public health nursing program includes home visiting, school nursing, health supervision of all age groups, part time nursing care of the sick and promotion of and assistance in organized health programs.

During the year 140 home visits were made. Fifty-six visits were made to individuals between the ages of 21 and 65 with a definite disease or health problem. Thirty-seven visits were made to children under 21 years of age who are receiving care from one of the medical care programs sponsored by the State Crippled Children's Service. Forty-seven visits were made to maternity patients, infants, preschool and school children in their homes to assist the families in solving some of their health needs.

The public health nurse takes an active part in the school health program in the following manner:

1. Periodic visits with school personnel.
2. Arrangements for selected screening tests of vision and hearing.
3. Planning and assisting with school health examinations and immunization clinics.
4. Home visits to children with known or suspected health problems.
5. Planning and assisting with the tuberculin testing of the subprimary and seventh grade pupils.

From January 1965 to December 1965, 354 pupils have received physical examinations by the school physician.

The public health nurse continues to participate in the monthly child health conference. The purpose of the conference is the physical examination of the well child. The immunization program in the child health conference is a preventive measure.

Statistics are as follows:

Attendance—Child Health Conference

Infants	37
Preschool	73

Completed Immunizations

Smallpox	25
Diphtheria, whooping cough and tetanus	42
Polio	15

School immunization clinic statistics

Smallpox	149
Diphtheria and tetanus	106
Tetanus	2
Polio	22
Tine test	175

Regardless of the type of work the public health nurse is doing, emphasis is placed on the prevention of disease and the promotion of health in a way that best meets the needs of the individual and community.

The assistance given to the public health nurse by members of the Yarmouth Health Council and other interested people is very much appreciated.

Respectfully submitted,

THERESA M. McNEIL, R.N.,

Public Health Nurse.

REPORT OF YARMOUTH HEALTH COUNCIL, INC.

In addition to the regular activities of the Health Council, the Council was host to the Annual Health Council Institute in April, 1965. 180 members of 26 Health Councils in Cumberland and York Counties attended an all day Health Forum held at the Yarmouth High School.

The Health Council sponsored for the first time a Measles Immunization Clinic in November. We are very grateful to the following organizations whose contributions made it possible for the Council to hold the Clinic: Yarmouth Grange, Yarmouth Lions, Anderson-Mayberry Legion Auxiliary, Yarmouth Firemen's Auxiliary, Junior Women's League and the Yarmouth Chamber of Commerce. 100 Children from ages 6 months through 12 yrs. were innoculated. Mrs. Barron McIntire, Jr. served as Chairman. Dr. McIntire, Dr. Freeman and Miss Theresa McNeil, Public Health Nurse were in attendance assisted by Council Members.

Well Baby Conference

The Well Baby Conference is available to all pre-school children residing in Yarmouth, and is held at the First Parish Church on the 3rd. Wednesday of every month at 9:00 a.m. Dr. McIntire and Miss Theresa McNeil are in attendance assisted by Volunteers from the Health Council. 139 children were seen in the year ended Dec. 1965. Physicals and immunization against small pox, polio, diphtheria, whooping cough and tetanus are given. Mrs. David Fossett is Chairman.

School Physicals

School Physicals are conducted by Dr. McIntire and Miss McNeil on all Athletes and students in grades 1, 4, 7, and 11. From Sept. '65 through Jan. '66, 259 children had been examined. The Tine Test for TB Detection was given in Jan. to the Sub-Primary and 7th Grade. Mrs. Oakley Curtis is Chairman assisted by Council Volunteers.

Immunization Clinic

An immunization clinic is held in April and May for students in all grades needing immunization or booster shots against Smallpox, Polio, Diphtheria and Tetanus. Mrs. Melvin Cash is Chairman.

Dental Clinic

The Dental Clinic, a Greater Portland United Fund Agency, was held on Fridays during February and March, 1965. 169 children in grades 1 through 8 received dental care. Dr. Kenneth G. Siver is the attending dentist and the work is administered in his office. The transportation and appointment desk are handled by members of the Health Council. Free toothbrushes are given out at the Clinic. Demonstrations on Dental Hygiene are given to the 3rd Grade by members of the Westbrook Junior College Dental Clinic, and Crest Kits are distributed. Mrs. Richard Walker was Chairman and Mrs. Ernest C. Bowler, Vice-Chairman.

Loan Closet

Sick room supplies are available for any Yarmouth Resident through the Loan Closet located in the Library Basement and may be secured from Mrs. John Tinker at the Town Office.

The Health Council has a Membership of 72. Meetings, which are open to any one in the community interested in the health needs and services of Yarmouth, are held on the first Mondays of October, December, February and April.

Respectfully submitted,

BARBARA J. FERRELL,

President.

REPORT OF THE RECREATION COMMITTEE

1965 has shown progress in several areas of the town's recreation program.

Two additional tennis courts at the high school have been completed. Therefore, making additional facilities available for the very successful tennis program, and for the use of the people of Yarmouth.

The Portland Street School is no longer being used as a youth center. It is planned to replace these activities with a summer program under the fulltime supervision of a college physical education major possibly with a college girl assistant. Such activities as volleyball, handball, tetherball, softball, gymnastics, mountain climbing and dancing will be offered.

At the Cousins Island beach a toilet was installed with plans for a bubbler and shower to be installed this summer.

A peewee hockey program was conducted by Mr. Hammond, Physical Education Instructor at North Yarmouth Academy. The Academy graciously allowed the use of their rink for this purpose. It is hoped that a separate rink will be provided for this purpose in the future.

The Committee is not recommending further appropriations for the JayCee Park in the coming year. This is a very attractive area and has adequate facilities for picnicking. However, it was found that it was used much less than anticipated.

Bennett Field was maintained and improved. The Committee is not asking for money to support the town team in the coming year. It was felt that the cost of operation of the town baseball team should, in the future, be presented to the Committee of twelve separately. All agreed that facilities should be provided by the town but our financial responsibility should end there.

The United Fund is continuing the support of our swimming program but has indicated that they would prefer to spend the money used for this purpose in other areas in the town.

There is increasing evidence that a swimming pool should be planned for.

A major accomplishment in 1965 was the construction of a Little League regulation size field on town-owned land.

We would like to thank Mr. Ferguson and other town departments who contributed their efforts towards developing a successful recreation program.

Respectfully submitted,

YARMOUTH RECREATION COMMITTEE,

Roy Reardon, Chairman

Harry Porter

William G. England

Richard Markham

Arthur Lovejoy

Mrs. Richard M. Boyd, Secretary

REPORT OF TREE WARDEN

Most of the tree money was spent on elms again this year, as we tried to follow State recommendations for holding Dutch Elm Disease in check.

Over two hundred elms were pruned, mostly in the West Main and Bay View Street areas. All large elms in built up sections of the Town have now had at least one pruning for removal of dead wood within five years. We should continue this work on a spot basis.

A thorough dormant spray was again applied along Main Street from the lower Fire Station to Sligo Road. Continuation of this, and perhaps an increase in the area covered, is strongly recommended.

About fifty infected elms have been removed during the past year, most of them on private property. Over fifty maples were planted.

Continuation of present control measures still seems to offer our best hope for saving elms.

I want to thank all individuals and organizations for co-operation in reporting damaged or sick looking trees. Please continue to do so, and don't forget to water trees next summer that were planted last year.

Respectfully submitted,

FRANK A. KNIGHT,

Tree Warden.

REPORT OF THE YARMOUTH SHELLFISH CONSERVATION COMMITTEE FOR 1965

The year of 1965 proved to be very active for this committee. The first project undertaken was a survey of the clam population in Royal River from the Breakwater to Vaill's Point. Diggers under the supervision of a state biologist (Donald Harriman) surveyed approximately 15 acres. The results showed a yield of 116 bushels per acre with a retail market value \$20,880. There is no question that diggers are hopefully waiting the completion of the Yarmouth sewage disposal plant which will clean up the area and probably open it for digging. It is interesting to note that clams can attain a size too large to be marketable and the mortality at about $3\frac{1}{2}$ inches is almost 100%. It shows that they are a crop and a proper time for harvesting is at about the $1\frac{3}{4}$ to the $2\frac{1}{2}$ inch size.

Open sewers from cottages and shore residents have been a major problem. We are happy to state that the White's Cove area is now entirely clean and on Princes Point there are only three violations left. Property owners have been very cooperative. Starting 1965 there were nine violations at Princes Point. The drop from nine to three shows a marked improvement. The

three in question necessitates the closure of the shore line to digging around the front of Princes Point. This area and Royal River are the only closed shore lines in Yarmouth at the present time.

Since this committee has been active we have noted that certain areas have annually been seeded heavily and the beginnings of a productive harvest seemed certain. Before the year had passed this growth of clams had disappeared. Why? Was it water conditions, predators, change in the texture of the mud or some reason not evident. Mr. Harriman was consulted and the results brought in the Soil Conservation Dep't. Erosion and silt washing from the banks along the shore lines seemed to be playing a part in this. Mr. Harriman's report covers this phase and other items relative to this problem.

The conservation area on Cousins Island which extended from Blaney Point to Cornfield Point was recently opened for digging. This will be open until June 1, 1966. This area was surveyed over a year and a half ago and the results showed a very heavy concentration of clams from one to one and a half inches long. They are now ready for harvest at a marketable size and the area should be turned over to permit the growth of the new sets which have seeded there. This type of control and conservation can keep an area a constant productive source year after year. This location is one of the last to become icebound in the winter, and winter openings prolong the digging possibilities of any one so inclined.

This year a deputy warden was appointed. Many out of town diggers were made aware of the Yarmouth laws. Flagrant violations were nil. No court cases resulted and we feel that the word is out that Yarmouth enforces its shellfish ordinances.

Now let us consider the value of the clams harvested in this town the past year. This figure will no doubt come as a surprise to most people. Commercial diggers (Those holding both town and state licenses) produced a total of 522 bushels at a retail market value of \$6,264.00. A substantial figure when it is taken into account that all of these diggers are part time

only. Mess diggers, estimated from surveys taken on week ends produced a value of \$2,808.00. This is a grand total of \$9,072.00. We certainly can not find fault with this.

A program for marketing is in order for the coming year. This would include various ways and means of expanding the market, a brand name for Yarmouth clams, ways to improve the product such as grading for size, better washing and cleaning methods, packaging, etc. Continued surveys to recognize areas to be set aside under conservation in order that growth will not be disturbed until the size is of market value.

It has been brought to our attention that there is a potential market along the New York and New Jersey coast for mussels. Sports fishermen are using these for bait. We have an overabundance of them here and it might be turned into an additional outlet for our diggers. We do not have enough information on this as yet to say any more than the foregoing.

We have been ably assisted by the Dep't. of Sea and Shore Fisheries and many thanks to the Commissioner, Ronald Greene, Biologist, Donald Harriman and the members at the research station in Boothbay Harbor. The work of the Soil Conservation Dep't. under the direction of Mr. S. Von Day is much appreciated. We can say "Well done" to our Warden, Ernest Grant and to our Deputy Warden, Charles Morrill.

The cooperation of the Selectmen have made all this possible, without their interest our programs could not have made this progress. Our thanks to the three men behind the long desk at the town office.

To retain and keep in force our Yarmouth Shellfish Ordinances, a yearly program of procedure must be submitted to, and approved by the Commissioner of Sea and Shore Fisheries. This requires a working fund appropriated by the town of approx. \$250.00 a year. The clam license money from Yarmouth is used to supplement this fund. We ask the residents of Yarmouth to support our program this coming year at the Town Meeting in March. Members of the Committee will gladly

give information to any resident relative to Yarmouth Ordinances, also where and when to dig. If you want a mess of clams and are at a loss of where to go—ask a committee member. The answer will be cheerfully given.

Respectfully submitted,

Nathan Thompson,

Ernest Grant,

Robert MacKinnon,

Robert Collins,

J. Warren Raynes,

Edward Collins,

Shellfish Conservation Committee.

REPORT OF THE CLAM WARDEN

To the Citizens of Yarmouth:

As Clam Warden of Yarmouth, I would like to make the following report of my activities for the past year.

During this past year, the Clam Committee, Sea and Shore Fisheries advisor, and I have concentrated our efforts on improving our clam areas. Many improvements have been made.

The areas of "Prince's Point" and White's Cove that were re-opened by efforts of the Clam Committee the past year proved to be very productive for both commercial and mess diggers.

The recent opening of our conservation area No. 2 between Blaney Point and Cornfield Point on the easternmost point of Cousin's Island should be welcome news to residents.

Copies of regulations in regards to open areas are posted in the town office.

I am also happy to report that the appointment of one deputy warden this year has greatly improved our protection on the

nearby shores and mostly to the outer lying islands. This has greatly reduced the violations.

Fourteen commercial licenses were sold this year, an increase of 3 over last year.

A more detailed report of production will be submitted by the Clam Committee.

Inspection of clam flats were made whenever tides and weather permitted.

With the continued efforts of clam committee and Sea and Shore Fisheries advisor, many improvements will be made in conservation program.

The Ordinance for Shellfish Digging Licenses as printed in the Warrant for this Town Meeting under Article 23, dated March 26, 1965 with the following amendments:

Sec. 2—include the words “or summer resident” after the word “resident”.

Sec. 6—to read “punished by a fine of not less than \$10.00 nor more than \$100.00 and by deleting the words “or by imprisonment for not more than 30 days.”

At this time I would like to thank the selectmen, Clam Committee, deputy wardens, and the Sea and Shore Fisheries advisor in helping me to make this a successful year. Also to all the permanent and summer residents my thanks for their cooperation and support.

I am looking forward to a progressive and productive program this coming year.

Respectfully submitted,

ERNEST E. GRANT,

Clam Warden.

REPORT OF YARMOUTH SHELLFISH MANAGEMENT PROGRAM

Board of Selectmen,
Yarmouth, Maine

Gentlemen:

The Yarmouth Shellfish Management Program this year has included the primary activities, the conservation area at Blaney and Cornfield points, pollution abatement, and a study of erosion and its effects upon clam flats.

Conservation Area II was opened on recommendation of the Yarmouth Shellfish Committee from April 20, 1965 to May 31, 1965 and has been opened again from January 13, 1966 to June 1, 1966.

As the town approaches the installation of a municipal sewage treatment plant which will do much to improve the Royal River, owners of homes and cottages with private sewers in the Prince's Point area have been improving their systems until now only three property owners are still in violation of the water classification. The town, the shellfish committee and the cooperation of land owners are to be complimented for the improvements to date and those under development.

The problem of certain clam flats which fail to produce clams in spite of a history of high productivity has continued to be a challenge. In 1962-63 treatment of the flats with gravel and various grades of crushed limestone was attempted. This experiment demonstrated that calcium salts had a slight adverse effect upon setting, but that winter mortality was almost complete and more important than variations in setting.

The layers of lime gravel and sand have been so completely covered by silt that it is now difficult to find them, and the area is still barren of clams. The rate of siltation appears to be very high, and is perhaps the critical factor. A survey was conducted in June with representatives of the U. S. Soil Conservation Service. Coastal erosion in the Yarmouth area is exten-

sive, but there appears to be no major local source of sediment which would be critical. It was noted, however, that the slope of the flat surface is related to clam survival.

To check on the possibility that the flow of mud across a horizontal or near horizontal flat was the source of difficulty, a series of barriers were erected along the banks of the Cousins-Littlejohn Island gut and the shore of Broad Cove.

Current patterns were so strong at Broad Cove that no conclusions can be drawn regarding the existence of any mud flow. Soil was thoroughly scoured under and around the structures.

At Cousins Island there is a one inch higher accumulation of sediment on the shoreward side of the barriers. Some scouring occurred but the effected area was limited. This summer a blanket of *Enteromorpha*, a filamentous alga, developed over the flat. The shore side of the barriers caught a mass of the alga in addition to the mud. The concentration of seed clams was slightly higher in the *Enteromorpha* than on the outside of the barriers when checked on October 4, 1965. The key to the experiment will be the survival and distribution of seed clams in the spring of 1966.

The town of Yarmouth has a very active and imaginative Shellfish Committee. They are alert and searching for ideas which will be of benefit to the town and its fisheries. It has been a great pleasure to me to be able to work with them.

Respectfully submitted,

DONALD M. HARRIMAN.

**LETTER TO DEPARTMENT OF
SEA AND SHORE FISHERIES**

March 25, 1965

Mr. Ronald Green

Commissioner of Sea and Shore Fisheries

State House, Augusta, Maine

Dear Sir:

Please be advised that the 1965 Conservation program for the Town of Yarmouth will follow the same prescribed course as it did in 1964 with the exception that an intensive survey of the clam population in Royal River is anticipated to evaluate its potential for future harvesting after the completion of the Town's new sewage disposal plant.

A complete survey of all the shore lines is also on the agenda to determine future areas for conservation programs.

The Town, at this time, has allocated funds in the amount of \$272.08 for this program. We are also asking the Town to vote an Ordinance for Shellfish Digging License at our regular Town Meeting, March 26, 1965. This ordinance is in essence the same as suggested to us by Donald Harriman.

Thank you for your cooperation during the past year, and we also wish to thank the members of your department who have so ably assisted us.

Your approval of our 1965 program is earnestly solicited.

Cordially,

BUEL J. FERGUSON,

Chairman, Board of Selectmen.

LETTER FROM DEPARTMENT OF
SEA AND SHORE FISHERIES

March 26, 1965

J. Warren Raynes, Chairman
and Board of Selectmen

Town of Yarmouth

Town Office - P. O. Box 155

Yarmouth, Maine

Dear Mr. Raynes:

This letter is to acknowledge the receipt of your communication dated March 25, 1965, in which you give a general outline for your town shellfish management program of the coming year.

We are very happy to approve this program. We know of the sincere efforts and great amount of time that you and other members of the Board have spent in recent years in behalf of your valuable shellfish resources. Mr. Harriman has frequently reported your good efforts to us, and the entire Department looks forward to our continued cooperative efforts.

Very truly yours,

RONALD W. GREEN,

Commissioner.

REPORT OF YARMOUTH BOARD OF HEALTH 1965

The Yarmouth Board of Health is conducting a study of the Health needs of the citizens of the town as to Nursing Care, Mental Health, etc. This study will necessarily continue into 1966 until the provisions of Medicare and related services are clarified.

The chairman participated, during April and May 1965 in an areawide study of the mental health conditions and needs conducted by the United Fund for the State Department of Health and Welfare.

The Board of Health requests that residents of the town become familiar with and observe those sections of the Health Code which concern disposal of garbage and trash. When these provisions are ignored, health hazards and nuisances are created for our neighbors and ourselves.

Respectfully submitted,

KATHARINE W. BOYD,

Chairman.

Committee

Barron F. McIntire, M.D.

William E. Freeman, M.D.

Mrs. Richard M. Boyd, Chrmn.

Mr. Kenneth G. Larrabee, Health Officer

REPORT OF THE YARMOUTH PLANNING BOARD

To the People of Yarmouth:

Although your Planning Board spent much of its time in connection with the sewer program which was approved at a recent referendum and Town Meeting, about a half dozen subdivisions were approved during the year, and, when discussion took place with regard to the Main Street project, it was voted at the last Town Meeting to turn it over to the Planning Board for study.

This Main Street project proves to be more complicated than was originally supposed. The questions as to where off-street parking can be located and where more areas for business are to be found, has caused the Planning Board to decide on a wider study. These and related problems cannot be adequately treated by a piecemeal approach, so the Board is making arrangements for a Comprehensive Plan to be drawn up with the help of the Greater Portland Regional Planning Commission. This Comprehensive Plan has the title "Project 701 phase 2" and will be paid for to the extent of 2/3rds of the cost with Federal Funds. A rough estimate of the cost to the Town is \$3000. This would give us not only an updated, complete study of the Town of Yarmouth, but also many other things which are needed in view of the predicted expansion in both homes and businesses. The dredging of the river, will in itself supply business and recreational opportunity in increasing amount in the next two or three years. The plans we drafted in 1958 are out-dated and did not include provisions for the expansion that is now in progress. It is therefore suggested that the funds appropriated for the Main Street engineering survey be spent for this Comprehensive Plan which will give us so much more of value than the more limited study. It is further suggested that the balance in that account should be sufficient in view of the available federal funds. An Article for the Warrant of the Annual Meeting in March is being recommended to the Selectmen.

It has been suggested that by putting the power and telephone lines underground on Main Street at the same time that the sewer is being installed would improve conditions. Discussions on this matter have taken place with the power and telephone companies. No conclusion has been arrived at as yet.

Much thought and conversation with regard to the development of Yarmouth as a substantial local point for for a larger recreational and tourist area for the Greater Portland Region, has taken place between members of the Planning Board and the State Park Commission, the Greater Portland Regional

Planning Commission and the Yarmouth Chamber of Commerce. The potential seems enormous. This should be considered in great detail during the preparation of the proposed Comprehensive Plan.

The services rendered to the Town by the Greater Portland Regional Planning Commission are to be expanded substantially. Appended to this report is a letter for the Commission explaining the services available. These have already been of substantial help in the past and will continue to be increasingly in the future. The services are provided at lower cost than would otherwise be possible. Furthermore, and this is most important, there will be a continuing implementation of plans and programs and suggestions for revision of the various ordinances.

The Planning Board has had meetings with the School Board in regard to location and size requirements of future school buildings. The Planning Board will assist in the purchase of necessary land and location of access roads; it will also assist in the capital expense program.

The Trustees of the Library have supplied space to the Planning Board in the back hall of the Library basement for files to hold the Board's maps and papers. Wooden panels have been attached to the wall for the display of large maps.

Respectfully submitted,

RICHARD BOYD, Chairman.

PLANNING BOARD

Katherine Tinker, Sec.

THE GREATER PORTLAND REGIONAL PLANNING COMMISSION

January 1, 1966

The following is a brief outline of major services which the Greater Portland Regional Planning Commission is now prepared to provide its members. It should be appreciated that this new and expanded program will require continued effort and support before it becomes 100% operative. If all agree that there exists a need for these services at the local level in addition to the Regional Planning Commission being a prerequisite to many Federal Aid programs now available, then the continued support of all GPRPC members is urged.

Scope of Services

1. Prepares and maintains a Comprehensive Regional Plan which furnishes a broad background of area-wide goals and data for the use of planning boards, municipal and other community officials (e.g. fire protection, education), State Highway Commission and other State agencies, private industry, commercial enterprises, builders, social agencies and individuals.
2. Maintains a complete repository of useful information concerning the region; e.g. population, school enrollments, employment, taxes, land use, zoning, financing, industry, etc.
3. Maintains a technical reference library for the use of all subscribing members, in addition to membership in professional advisory organizations such as the Urban Land Institute and American Society of Planning Officials. These services can rarely be provided by individual communities except at some considerable cost.
4. Provides a forum for discussions of inter-community problems.

5. Provides a collective voice for the area on planning matters of regional significance.
6. Provides a full-time professional advisory field service to the planning boards and/or public agencies of all participating communities, large or small. This service includes, amongst other things, assistance in the drafting of ordinances, technical advice in developing or reviewing local programs, attendance at meetings, preparation of planning assistance applications and drafting of scopes of service. The advisory service is to be regarded as a technical resource upon which communities may draw. It will be provided upon request and will constitute a tangible and effective exchange for local dues to the Greater Portland Regional Planning Commission.

RICHARD M. BOYD, Chairman

Baxter Bldg., 562 Congress St.
Portland, Maine

REPORT OF BUILDING INSPECTOR

To the Citizens of Yarmouth:

There have been 107 construction permits totaling \$632,425.00 issued this year. This is broken down as follows:

29 permits for new homes	\$407,100.00
15 permits for non-residential buildings	145,320.00
63 permits for additions and alterations	80,005.00

I wish to thank the town officials for their support and the property owners for their cooperation.

Respectfully submitted,

ROBERT J. HODSDON,

Building Inspector.

REPORT OF THE ELECTRICAL INSPECTOR

To the Board of Selectmen:

During the past year there have been twenty seven permits issued for new houses, nineteen for commercial installations, thirty two for additions, thirteen oil burner installations, ten for alterations, four educational buildings, and sixteen residential fire alarm systems.

It has been a pleasure to work with our Town officials who have been very cooperative.

I want to express my thanks to the Citizens of Yarmouth who have been most kind and considerate when I have had occasion to call to make an inspection. Also to the Central Maine Power Company and Elliot Hanson alternate Electrical Inspector for their cooperation.

I am always willing to explain any of the National Electrical Code rules to anyone interested in wiring who is not familiar with the National Electric Code.

Respectfully submitted,

ROY M. FITTS,

Electrical Inspector.

MERRILL MEMORIAL LIBRARY

Book circulation for 1965 was 25,997—an average of 86.2 books a day:

7043	adult fiction
3405	adult nonfiction
11961	junior fiction
3032	junior nonfiction
545	magazines

702 books were accessioned:

152	adult fiction
200	adult nonfiction
229	junior fiction
121	junior nonfiction

Three additional periodicals were subscribed to:

Downeast

Saturday Review

U. S. News & World Report

Memorial gifts were received for:

Elizabeth B. Esten

Edith C. Gooding

Captain Herman Ingalls

Isabel Y. Purinton

Frances Turner

Elizabeth W. Walker

These people were remembered by the Yarmouth Branch of Farm and Garden, Woman's Club of Yarmouth, Nidoba Neighborhood Kennebec Girl Scout Council and by their personal friends.

The reference room has been repainted and several new reference titles have been added.

Mrs. Elsie Libby retired this fall after many years of faithful and devoted service. Mrs. Richard H. Hayden is now assisting during the week and Miss Louise Rogers on Saturdays.

At Christmas time Girl Scout Troop 187 placed bouquets of greens in the library and the Woman's Club provided a large wreath for the outside of the building. A table arrangement of greens by Mrs. William L. George was given by the Yarmouth Branch of Farm and Garden. The flower boxes for the spring and summer season were planted by the VIS.

REPORT OF TREASURER OF MERRILL MEMORIAL LIBRARY

To the Trustees of Merrill Memorial Library:

I herewith submit my report as Treasurer for the year ending December 31, 1965:

Receipts

Balance on hand, Jan. 1, 1965	\$ 221.30

Miscellaneous	212.52
	<hr/>
	\$7,776.73

Respectfully submitted, this tenth day of January, 1966.

E. FOSTER BISHOP,

Treasurer.

YARMOUTH HISTORICAL SOCIETY**MUSEUM REPORT****1965**

Presenting the Image of Progress attained by the 6-year old Museum—progress through a Program of Projects—projects that enhance the educational purpose of our Society program. Having in mind that the Field of Historical Societies is the Field of Education, it is obvious, therefore, that our Society should have an expanding Program of Education to offer. Our Program of Education is expanding and this is how it is to be accomplished.

Major Project No. 1

The Trustees of our Merrill Memorial Library, in a joint session with the Trustees of our Society, November 23, markedly advanced the educational possibilities of our Society Program and facilities. Their generous gesture of cooperation provides the use of the Trustees' Room adjacent to the Museum Viewing Hall for cultural purposes. More will be published later on this project, its scope and limitations. The new facilities will, however, be set up as an Historical Reference Library. Its primary purpose will be the function of Interpretation.

Major Project No. 2

To honor the memory of William Hutchinson Rowe, our historian, the Historical Society is developing a permanent exhibit. The exhibit will portray Mr. Rowe's life from infancy through to the peak of his accomplishments. The exhibit will be given a place of honor in the Trustees' Room at the Merrill Memorial Library.

Major Project No. 3

Our "Authentic Historical Brochure," sparked by color photography, was put into circulation in October. It imme-

diately aroused widespread interest in the Museum. The brochure is strikingly colorful, and unique in the high level of its historical facts about Yarmouth and the spanning of 323 years of its history. Recently the Paper Co. in Maine that produced the paper on which the brochure was printed became intrigued by the colorful appearance of the brochure. By permission of our Society Trustees, the Paper Co. had 15,000 copies printed and sent out to all their distributors coast to coast. This was done as a sales pitch for their paper to show how this paper brings out the beautiful reproduction of color prints. It was also an extraordinary free sales pitch for Yarmouth and the Museum.

Miscellaneous Program Activities Public Participation

- 7 Lectures given grade school children on History of Maine—Yarmouth—Prehistoric Animals.
- 2 Public Lectures for adults on Old Trolley Cars—One illustrated.
- 1 Display on "Shipbuilding Days in Yarmouth." Display set up at Canal Bank for their "Open House" event.
- 3 Transient Displays
 - Dolls and doll furniture.
 - Trophies won by Yarmouth Fire Dept.
 - Art Exhibit of 69 paintings by Yarmouth artists.
- 1 Display of European curios.
- 7 Tape Recordings made for lectures.
- 1 Tape Recording of The Christmas Story and Carols for the Children's Party.
- 8 Society meetings held.

Total attendance at lectures, displays, meetings, and visitors at the Viewing Hall—2330.

Yarmouth Historical Society Trustees acknowledge with deep gratitude the gifts given to the Society by the following:

Estate of Anna D. Rowe
 Estate of Mary E. Plummer
 Estate of Charles Greeley

Estate of May Allen
Marvin Harmon of Gray

Grateful acknowledgement is herewith given to:

The Canal Bank for the use of the Community Room
Our Hostesses

The Village Improvement Society and many friends
for their gifts.

MILTON A. NIXON,
President

CATHERINE BARKER,
Supervising Hostess

GEORGE W. GARNISS,
Curator.

YARMOUTH HISTORICAL SOCIETY

Breakdown of Total Receipts and Expenditures for Period 1965

Town money allocated for 1965	\$1,400.00
Amount carried over from 1964	300.00
(By agreement, to apply on a Tape Recorder)

MILTON A. NIXON, President

REPORT OF THE INSURANCE ADVISORY COMMITTEE

The Insurance Committee in 1965 continued its policy of reviewing, advising, and placing the Town's insurance with agents in Yarmouth who qualify for participation under the terms prescribed by the Selectmen.

This year we added the new addition to the William Rowe School to our master fire policy and we now insure the school buildings, those of the water district, town buildings other than schools, and the Merrill Memorial Library. The contents within these buildings are also included in this policy.

All other insurance coverage in Yarmouth is handled by bid and no significant changes are apparent in this area.

It is a reflection of the conscientious effort of the officials of the Town who are responsible for the safety of our buildings and vehicles that we enjoy very attractive rates in the several areas of insurance.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of Yarmouth:

I herewith submit the annual report of the Superintendent of Schools.

First of all I wish to express my appreciation for the opportunity of working in a school system which is supported so well by the school officials and the community. It has also been a pleasure to follow Superintendent James Morrison, Jr., who left things in excellent shape for continued growth and future development.

On January 1, 1966, more school history was made when the office of the Superintendent of Schools was opened in the clinic rooms of the Yarmouth High School building. This move, authorized by a vote of the Joint Committee of School Union No. 14, was made in recognition of the growth in the school population in this district, especially in Yarmouth. This will result in better service as more time can be devoted to Yarmouth while the newly created position of Assistant Superintendent of Schools will care for the school business of Freeport and Pownal.

It is evidently only a question of time when a total of seventy-five teachers in Yarmouth will make it possible for the town to have its own school administrator apart from the school union. In fact, the needs for enlarging the teaching staff are growing so fast that there is pressure for more teachers and classrooms. A building study committee is urgently needed.

The new school buildings are in excellent condition except for some leaks in the new part of the Rowe School. The architect has been notified of this condition and he will undoubtedly make the necessary repairs before expensive and extensive damage occurs.

Textbooks are in good condition. However, it is necessary to buy new books each year due to wear and tear, larger en-

rollments, and the tendency of books to become obsolete in some areas due to the increase of knowledge and to changing times.

Teaching supplies is a budget item which tends to get bigger for somewhat the same reasons that apply to the textbook account. Needless to say, the rising costs of labor and materials are reflected in this item also.

There are still some pieces of equipment needed in the various departments. The budget for 1966 provides for some of these items.

Pupil progress seems to be very satisfactory. A strong teaching program with adequate testing is producing good results. We are fortunate in having an excellent teaching and administrative staff. The problem is how to keep these valuable members of the school system as other communities and offices are competing for their services.

There never was a time when an education was so important. We must do everything possible to help our youth prepare for both today and tomorrow. Federal funds are being used for this purpose wherever possible as a supplement to local and state efforts.

It has been very gratifying to find an unusually efficient and up-to-date program in the elementary schools. Here the foundation is laid for all future education. This particular phase of the school program has benefited much from the long and successful experience of the Elementary Supervisor. Although it is planned to eliminate this position for 1966-1967, his services will be retained as Principal and his counsel and leadership will still be available.

The Superintending School Committee has just approved of a new salary schedule which should be a strong inducement both to retain and to obtain competent and outstanding personnel.

Pay raises have also been budgeted for 1966 to benefit bus drivers and custodians. These important parts of the school system must be remunerated to keep pace with rising costs of living. These men are doing a fine job in keeping the buildings clean and looking right as well as conveying pupils.

A report from the High School Principal is included with this report, also a financial statement of 1965 and the budget for 1966.

May I congratulate the citizens of Yarmouth for the advance step in adopting the town manager form of government and at the same time electing most competent officials to administer this new type of government.

In closing I wish to thank all those who contributed to a successful school year, including citizens, school personnel and town officials. I have found the School Board most understanding and co-operative. I wish to express my appreciation especially to them.

Respectfully submitted,

HUBERT E. REDDING,

Superintendent of Schools.

PRINCIPAL'S REPORT

In December, 1965 Yarmouth High School was elected to membership in the New England Association of Colleges and Secondary Schools. By this action we have joined with other forward looking schools in an effort to promote growth in the quality of secondary education. Membership in this organization imposes a responsibility on the school to provide our pupils with an ever improving educational experience. Such improvement requires constant self appraisal and a willingness to meet changing needs and situations. One of the important tools the school may use in self improvement is the report of the visiting committee of the accrediting agency. This report is the consensus of the committee's opinion regarding the strengths of the school as well as the areas in which progress can be made. Many of the recommendations of the report have been put into effect; however there are a number of major items that will require considerable budgetary provisions. We are attempting to institute the recommendations which we feel have priority.

One of our pressing needs lies within the math department. We have a number of courses being taught as secondary subjects outside the teacher's major concentration. By consolidating these under a single teacher we can eliminate this problem as well as enlarging our number of course offerings in other areas. The person selected for this position should be able to work on the problem of curriculum revision in General Math and the problem of articulation of Junior and Senior high math courses.

This past year has seen a deterioration of the High School art program because of the loss of our Art teacher. Both the State and New England accrediting agencies stress the need for a balanced curriculum. Programs which develop aesthetic values are a necessary part of a comprehensive high school. We have, therefore, asked for an Art teacher to reestablish art courses in the Junior and Senior High School.

Increasing enrollment in the Junior High will be a problem next year. We anticipate ninety seventh graders next year. This will necessitate the addition of one whole section of classes.

Because all our teachers are now carrying a full schedule we will need an additional teacher to handle the additional classes. A look at the enrollments of the lower grades will show that this is a continuing trend. At present a number of our Junior High classes contain over thirty pupils. These classes are at, or near, the saturation point. It will be impossible to absorb the increase in enrollment without curtailing some part of the program.

Under the Elementary-Secondary Act we have implemented a program of specialized education for pupils that have difficulty with the standard program. Part of this project involves a remedial teacher on a half-time basis. We also have need for the remaining half time of this teacher for remedial programs as part of our regular program. With the advent of the new attendance law, we are going to have a larger number of pupils with learning problems. Therefore remedial classes must become a part of the regular program.

We have long recognized a need for pupil health services. The accreditation report concurs in this viewpoint and recommends that a school nurse be employed to serve the health needs of the entire school system. One point should be stressed; a school health program is not "taking care of sick kids." A school nurse has primarily an educational function, and her caretaking functions should involve a very small percentage of her time.

Brief mention should be made of a number of problems which should be kept in mind in making long range plans. Our Industrial Arts and Home Economics offerings in the Junior High are now at a point below State requirements. To correct this situation will require space as well as staff. In a few years additional staff will be needed in the commercial field to keep class sizes to manageable proportions. As enrollments creep upward an additional guidance counselor will be needed. We can hold the line in these areas for a few years but we are reaching a point of decision. Long range planning is needed.

What the total impact of the federal government's entry into education will be is difficult to determine, but several generali-

zations can be made. Staffing existing schools and new positions will become more difficult as time passes. I would guess that well over 500 new positions have been created in this state as a result of the new federal projects. Competition for teachers will be felt by everyone.

A great deal of effort is going into new and original approaches to education. As the experimental phases of these projects develop, pressure will build to adopt the more promising of the new ideas. This makes it mandatory that all concerned with education keep abreast of the changing situation. Education is in a state of flux, and we who are in the field recognize the terrific responsibility of keeping up with the pace.

Yarmouth has every right to be proud of its High School. There are very few schools in the State of Maine that are fully accredited both by the State Department of Education and by the New England Association. We are located in an area of intense competition in regard to educational facilities. With our outstanding faculty, a very fine school plant, and a cooperative student body, we can hold up our heads with the best. Maintaining our standing is the concern of every Yarmouth citizen.

Respectfully submitted,

FRANKLIN E. BLACK,

Principal.

AUDITOR'S REPORT

STATE DEPARTMENT OF AUDIT

State House

Augusta, Maine

July 29, 1965

Board of Selectmen

Yarmouth,

Maine

In accordance with Title 30, Section 5253, Revised Statutes of 1964, an audit has been conducted of the financial records of the Town of Yarmouth for the fiscal year ended January 31, 1965.

The examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

In our opinion, the exhibits and schedules incorporated in this report, present fairly the financial position of the Town at January 31, 1965, and the results of its operations for the year then ended.

Respectfully submitted,

ARMAND G. SANSOUCY,

State Auditor.

W A R R A N T

Annual Town Meeting March 18, 1966

To: Lester E. Graham, a constable of the Town of Yarmouth,
State of Maine.

GREETINGS:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the Town of Yarmouth, qualified to vote in Town Affairs, to meet in the Yarmouth High School in said Town Friday the 18th day of March A. D. 1966 at 7:30 p. m. to act on the following Articles to wit:

Article 1. To elect a moderator to preside over said Meeting.

Art. 2. To hear and act upon the report of the Selectmen, Overseers of the Poor, Treasurer, Assessors, Superintending School Committee, Chief of the Fire Department and any other Officer or Committee.

Art. 3. To see what sum of money the Town will raise and appropriate for General Government: 1. Council, 2. Town Manager, 3. (a) Assessor (b) Mapping (c) Appraisal, 4. Town Clerk, 5. Assistant Tax Collector, 6. Assistant Treasurer, 7. Attorney, 8. Elections, 9. Registrar, 10. Departmental Expense, 11. Bookkeeper and Records Clerk.

(Committee of Twelve Recommends \$30,050.00)

Art. 4. To see if the Town will raise and appropriate the sum of \$41,872.00 for Protection of Persons and Property.

Police Dept.: 1. Salary of Chief, 2. Salary of Assistants, 3. (a) Auto Repairs and Maintenance (b) Gasoline, 4. Departmental Expense: (a) Clothing (b) Phone (c) Misc., 5. Special Police.

Fire Department: 1. Salary of Chief, 2. Allowance for Companies, 3. Clothing Allowance, 4. Expenses and Equipment,

5. Fire Inspections, 6. Insurance on Town Property, 7. Workmen's Compensation, 8. Federal Old Age Insurance, 9. Clam Warden, 10. Civil Defense.

(Committee of Twelve Recommends \$41,872.00)

Art. 5. To see if the Town will raise and appropriate the sum of \$24,187.00 for Health, Welfare and Recreation: 1. Salary of Health Officer, 2. Vaccine and Drugs, 3. Garbage Collection, 4. Welfare: (a) Local Charity (b) Dependent Children, 5. State Health Nurse, 6. Recreation.

Art. 6. To see if the Town will appropriate from Excise Tax Receipts the sum of \$36,100.00 for the operation of Public Works Dept: 1. Common Roads, 2. Bituminals, 3. Snow Removal, 4. Curbs and Sidewalks, 5. Maintenance of Equipment, 6. (a) Bridges (b) Wharves (c) Town Landings (d) Wells, 7. Dump, 8. Sewers, 9. Memorial Sites and Lawns.

(Committee of Twelve Recommends \$36,100.00)

Art. 7. To see if the Town will raise and appropriate the sum of \$41,655.00 and appropriate from Excise Tax Receipts \$5,600.00 for the following unclassified accounts:

Public Utilities: 1. (a) Street Lights (b) Hydrants, 2. Merrill Memorial Library, 3. Cemeteries, 4. Tree Care, 5. Planning Board, 6. Advertising, 7. Maine Publicity Bureau, 8. Area Development Council Dues, 9. Memorial Day, 10. Clam Conservation Committee, 11. (a) Chamber of Commerce Festival (b) Advertising, 12. Historical Society.

Art. 8. To see if the Town will vote to authorize the Council, on behalf of the Town, to give assignments of the mortgages created by the tax lien certificates, also to see and dispose of any real estate acquired by the Town for non-payment of taxes or otherwise, on such terms as they deem advisable, and to execute quit-claim deeds for such property.

Art. 9. To see if the Town will fix a date when taxes shall be due and payable and see if the Town shall charge interest on unpaid taxes, after such date.

Art. 10. To see what sum of money the Town will raise and appropriate for Debt: 1. Principal, 2. Interest: (a) Long Term (b) Short Term.

Art. 11. To see if the Town will vote to authorize the withdrawal of the \$5,000 plus interest from the Reserve Fund for the purchase of a new school bus, and transfer said Fund to the School Account.

Art. 12. To see what sum of money the Town will vote to raise and appropriate in addition to the \$5,000 plus interest (Article 11 above) in the School Bus Purchase Reserve Fund for the purchasing of a new school bus.

Art. 13. To see what action the Town will take in regard to the formation of a Building Study Committee.

Art. 14. To see what sum of money the Town will vote to raise and appropriate for Support of Schools: Administration, Instruction, Attendance and Health Services, Pupil Transportation Services, Operation of Plant, Maintenance of Plant, Replacement of Equipment, Fixed Charges, Food Services and Capital Outlay.

(School Committee Recommends \$533,714.56)

Art. 15. To see if the Town will vote to authorize the Council in the name of the Inhabitants of the Town of Yarmouth to reconvey to Central Maine Power Company for the sum of One (1) Dollar, two lots known as lots 102 and 103 on Cousins Island as shown on Plan of the Seashore Land Company and being the same premises described as Parcel 2 of a deed from Central Maine Power Company to the Inhabitants of the Town of Yarmouth dated January 27, 1965.

Art. 16. To see if the Town will vote to transfer \$3,462.77 the balance of the funds appropriated for an engineering study of Main Street at the Town Meeting held on March 26, 1965, to an expanded study and development of a Comprehensive Plan under the title "Project 701 phase 2" provided the available Federal Funds are assigned to this Project, the study to be made with the assistance of the Greater Portland Regional Planning Commission.

Art. 17. To see if the Town will raise and appropriate the sum of \$6,800.00 to build a retaining wall on the shore of Royal River, for a distance of approximately 320 feet, bordering the boundary of Riverside Cemetery. [This wall is to stop the erosion of the bank and eventual falling away of the soil on top where burial lots are located.]

Art. 18. To see if the Town will raise and appropriate the sum of \$5,000.00 partial payment to install a new heating system in Merrill Memorial Library.

Art. 19. To see if the Town will raise and appropriate the sum of \$1,000.00 to apply on a purchase of a new Police Car.

Art. 20. To see if the Town will vote to remove from Police Car Reserve Fund \$1,000.00 plus interest to apply on the purchase of a new Police Car.

Art. 21. To see what sum of money the Town will raise and appropriate for the Capital Improvement Reserve Fund for Schools and Education.

Art. 22. To see what sum of money the Town will raise and appropriate for the Capital Improvement Reserve Account for the new Sewer System.

Art. 23. To see what sum of money the Town will raise and appropriate for a Capital Reserve Account for Highway Equipment.

Art. 24. To see if the Town will raise and appropriate \$4,724.00 for State Aid Roads (this money is matched and 20% bonus by the State).

Art. 25. To see if the Town will raise and appropriate the sum of \$4,000.00 to purchase a new and more versatile emergency truck. Present emergency truck (which was the gift of the Town by the fire company) to be used as part payment.

Art. 26. To see if the Town will raise and appropriate the sum of \$500.00 for a Town Ball Team.

Art. 27. To see if the Town will authorize the Town Manager, with the approval of the Council, to install such additional street lights and hydrants as he deems necessary in the public interest.

Other articles received too late to be included.

Signed:

BUEL J. FERGUSON,

MILTON A. NIXON,

ALLEN M. RAND,

Board of Selectmen.
